## PROJECTS

---

### Mobile Quiz Application

March 2024

Tech Stack: Dart, Flutter, Firebase

- The quiz application built using Flutter and Firebase, designed to provide a seamless and interactive learning experience. The app features multiple categories of quizzes, user authentication via Firebase, and real-time database integration for storing and retrieving quiz data and scores.

### Simulation Notepad

April 2023

Tech Stack: Python, Tkinter

- The Simulation Notepad is a powerful and user-friendly software tool for creating and editing simulation models. With its range of features, including text editing, formatting, translation, and quick access to system software, it provides a comprehensive environment for simulation modeling tasks.
